

Our People.  
Our Difference.

Harvest Oilfield Service is an energy service provider,  
specializing in mobile boiler solutions delivering  
*high quality workmanship and reliability –*  
**Our People. Our Difference.**

Our commitment to overall quality and continuous improvement consistently generates **safe and cost efficient results**. Harvest's diversified leadership approach and team of hard working, skilled and devoted members have created a positive, practical and productive culture.

Since 2005, Harvest has continued to expand its mobile boiler units from drilling, completions and turnaround services in varying capacities. The inventory of mobile equipment continues to evolve and improve year over year to support **our goals for safety, environment, efficiency and diversification**.

## Services

Harvest is strategically designed to offer a diversified set of mobile boiler services to the energy industry for seasonal drilling and completion programs along with turnaround maintenance services. The company is structured to allow for effective and efficient deployment of mobile equipment and personnel within Western Canada.

Mobile boiler and operator services include a complete range of small, medium and large scale units in the areas of:

- Drilling and Completions – Utility Steam
- Drilling and Completions – Certified Boiler Operators
- Drilling and Completions – Fuel and Water Hauling/Supply
- Turnaround Services – Utility Steam
- Turnaround Services – Steam Cleaning
- Turnaround Services – Certified Boiler Operators

## Safety

The leadership team is fully committed to its health, safety and environment program. This is a fundamental business practice within Harvest and takes top priority for all employees and contractors. The company's policies are consistently reviewed and modified to align with changes in government regulations, customer requirements and the company's continuous improvement initiatives.

Harvest has achieved and maintained COR (Certificate of Recognition) for Partnership in Health and Safety from the Alberta Association for Safety Partnerships (AASP) and continued compliance with all ComplyWorks and ISN requirements.

## Our Commitments

- Provide leadership and resources to sustain an environmentally sound and safe workplace.
- Identify, evaluate and minimize the risk to people and the environment from hazardous exposures.
- Work with employees/contractors to measure, assess and award performance.
- Improve program effectiveness through communication of goal setting, objectives and performance.
- Comply with established occupational health, safety and government regulations.
- Incorporate customer's safety initiatives and awareness priorities into our policies and company communication.
- Encourage employees/contractors to exercise solid HSE practices and good judgement in all aspects of their lives — not just at work.
